EDUCATION

Web Development / System Development with AI

Lexicon Malmö AB

March 2025 - Present (Expected graduation: August 2025)

Pursuing an intensive program combining traditional full-stack development with modern AI integration.

Building strong foundations in C# and .NET framework, including Entity Framework and LINQ, alongside SQL database management and Azure DevOps for CI/CD.

Developing frontend expertise with HTML, CSS, JavaScript, TypeScript, React, and modern CSS frameworks (Tailwind, Bootstrap).

The program uniquely integrates AI technologies through Azure AI services, chatbot development, and data visualization with Python.

Also gaining experience with Flask and Django frameworks. Applying Agile/Scrum methodologies throughout collaborative projects while developing skills in test-driven development and technical documentation.

Full-stack developer with a focus on JavaScript (Fullstackutvecklare - inriktning JavaScript)

Teknikhögskolan, Lund, Sweden

August 2021-August 2023

Completed comprehensive program covering Java, JavaScript, HTML, CSS, React, Databases, and Secure Software practices. Advanced coursework included Java Spring and Object-oriented Analysis and Design.

Program featured work-integrated learning (LIA).

Achieved grade A (Swedish "VG") throughout.

Programming 1. C#

Hermods, Lund, Sweden

2021

I completed the "Programming 1" course with a focus on C# at Hermods in Lund. Throughout the course, I consistently excelled and achieved a grade of A.

Bachelor's degree in Spanish (Linguistic focus)

Lund University, Lund, Sweden

2018

I earned my Bachelor's degree in Spanish with a linguistic emphasis from Lund University. I successfully completed the program with a final grade of A.

Linguistics: Basic Course

Lund University, Lund, Sweden

2015

I completed the basic course in Linguistics at Lund University, achieving a grade of A.

Japanese I: Basic Language Skills

Online-based course, Dalarna University, Dalarna, Sweden

2014

Beginner's Course I: Italian / Beginner's Course II: Italian

Lund University, Lund, Sweden

2014

I completed both the Beginner's Course I and II in Italian at Lund University, achieving a grade of A in both courses.

Swedish as a Foreign Language

Lund University, Lund, Sweden

2010

I took the "Swedish as a Foreign Language" course at Lund University, which is equivalent to the Tisus test. Tisus is a proficiency examination in the Swedish language, and obtaining its certificate qualifies an individual to undertake academic studies in Swedish institutions.

Translation and Interpreting

University of Granada, Granada, Spain /
University of Westminster, London, UK

2001-2004

EXPERIENCE

Front-End Developer

Axis Communications, Lund, Sweden

June-August 2023

My main work duties included front-end development using Typescript, HTML, React and GraphQL. I worked with bug fixes but also with implementation of new features in Axis built-in web client.
